# LA STORIA

Alfredo Vavassori inizia, nei primi anni '60, la produzione di reti a maglia sciolta zincata e plastificata, alla quale presto si affianca anche la commercializzazione di filo cotto e zincato, di chiodi e di una serie di articoli legati all'edilizia e alle recinzioni.

Negli anni seguenti, la continua evoluzione dell'impresa permette di affiancare alla produzione di reti anche quella di una parte di articoli che prima venivano solo commercializzati.

Una continua crescita, che ha portato a trasformare l'attività artigianale di ieri nelle attuali TRAFILERIE VAVASSORI s.r.l.

# OGGI

TRAFILERIE VAVASSORI s.r.l. producono filo trafilato, filo zincato, filo cotto nero e bianco, filo lucido in confezioni prepesate (da 5 kg sino a matassoni da 1000 kg); chiodi di tutte le misure, lucidi, zincati elettroliticamente e a caldo; filo plastificato in varie confezioni (dalle matassine da 10 metri per il "fai da te", sino ai matassoni per uso industriale da 500 kg) e rete metallica a maglia sciolta, sia zincata che plastificata.

L'intera produzione viene realizzata con macchinari all'avanguardia per garantire sempre la massima qualità.

TRAFILERIE VAVASSORI s.r.l. hanno affiancato, alla produzione, la commercializzazione di una vasta gamma di articoli per edilizia.
